Total investment charges

Period (Annualised, rolling three-year period): 01 Jun 2023 to 31 May 2026

Total expense ratio (TER) The annual cost of managing and administering the fund.	0.88%
Average annual service charge (incl VAT)	0.50%
Underlying manager performance fee expense	0.02%
Underlying global manager expense	0.09%
Underlying fund expense	0.27%
Other expenses	0.00%
Transaction costs (TC) The cost of trading the fund's assets.	0.10%
Total investment charges (TER + TC) The full internal cost of being invested.	0.98%

Total expense ratio (TER):
The percentage of the value of the portfolio that was incurred as expenses relating to the administration (charges, levies and fees) of the portfolio. TER is calculated over a rolling three-year period (or since inception where applicable) and annualised to the most recently completed month. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs.

Transaction Cost (TC):
The percentage of the value of the portfolio that was incurred as costs relating to the buying and selling of the assets underlying the portfolio. TCs are a necessary cost in administering the portfolio and impacts returns. It should not be considered in isolation as returns may be impacted by many other factors over time, including market returns, the type of financial product, the investment decisions of the investment manager and the TER. Calculations are based on actual data where possible and best estimates where actual data is not available.

Total investment charges (TIC):
This percentage of the portfolio was incurred as costs relating to the investment of the portfolio. It is the sum of the TER and TC.
